The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure essect, or any other blood disease. The gruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be out cut.

My sen had a most malignant Caneer, for which the doctors said at operation was the enly hope. The oper-ation was a severe the as it was more. che, as it was necessary to cut down to the ja whone and mrape it. Before a great while the Can-ber returned, and becer returned, and began to grow rapidly.
We gave him many ramedies without relief, and finally, upon the advice of a firwad, decided to try 8. S. (Swift's Specific), and with the second bottle he hegan to improve. After tweaty bottles had been taken, the Cancer disappeared saturely, and he was cured. The cure was a permanent one, for he is now seventeen years eld, and has never had a sign of the dreadful disease to return.

THE AMERICAN RAILWAY SYSTEM

The Remarkable Achievements With in the Last Half Century.

PRESIDENT DANIEL'S ADDRESS

The Change in Public Sentiment Toward Railroads as Indicated by the Election of Chauncey Depew to United Utates Senate.

President George H. Daniels, of the senger Agents, and general passenger agent of the New York Central and Hudson River railroad, read on "Expansion Day," before the International Commercial Congress at Philadelphia, a paper on "American Railroads: Their relation to commercial, industrial and agricultural interests," Reviewing briefly the history of the last two or three years affecting the commercial relations of the nations, particularly those of the United States with the Orient, noting the changes in public sentiment in this country toward railroads, as indicated by the recent election of Chauncey M. Depew to the United States senate, and in Germany and Russia and the far East, by the rapid increase in railroad lines, and traffic, due to railroad competition, Mr. Daniels continued in the latter poras follows:

We are approaching the end of the free, ninteenth century, a century which Henry Drummond said, has added while the lighting of trains on most more to the sum of human learning than all the centuries that have passed.

A few examples of the achievements of American railroads in a little more American railways. A single lecomothan half a century, and many of them tive recently hauled a passenger train Herring's National Cafe every day. within the last twenty-five years, can- of 16 cars, 9 of which were sleeping not be inappropriate.

Before the railroads were built it took a week to go from New York to Buffalo, and 15 minutes, which is 44 miles per nearly thre weeks from New York to hour, and is the regular schedule time Chicago, and at that time no man of this train. The train weighed 1.832, would have thought of making a trip 000 pounds, and was 1,212 feet-or from New York to the Pacific coast, hearly a quarter of a mile-long, Restore Vitality Lost Vigor and Manhood.
